Company Overview

Greendrop Solutions is a rapidly growing water and wastewater treatment company, offering reliable, cost-effective, and sustainable solutions to industrial and commercial clients. We specialize in the manufacturing, supply, installation, and servicing of complete water treatment systems, including RO, STP, ETP, ZLD, UF, Softener, DM, and MB plants.

With a focus on quality engineering, transparent service, and long-term partnerships, we deliver systems designed under the supervision of experienced professionals to ensure performance, durability, and compliance.

Along with turnkey systems, we also provide Consultancy, Annual Maintenance Contracts (AMC), Operations & Maintenance (O&M), and trading of industrial water-treatment equipment, making us a complete end-to-end solutions provider.

Supported by trusted technology partners and a skilled technical team, Greendrop Solutions is committed to enabling sustainable and efficient water management for every client.

Vision, Mission & Values

Our Vision

To be a trusted leader in delivering sustainable, innovative, and high-quality water and wastewater treatment solutions across industries.

Our Mission

To provide reliable, cost-effective, and efficient water treatment systems and services that help clients achieve operational excellence, environmental compliance, and long-term sustainability.

Our Core Values

- **Quality** — We maintain high standards in every product and service we deliver.
- **Integrity** — We work with transparency, honesty, and accountability.
- **Innovation** — We adopt advanced technologies to improve system performance.
- **Customer Commitment** — We prioritize long-term relationships and responsive service.
- **Reliability** — We deliver solutions that clients can depend on, every day.

Core Solutions

At Greendrop Solutions, we deliver a complete portfolio of water and wastewater treatment technologies engineered for performance, reliability, and long-term sustainability. Our capabilities cover the full lifecycle design, manufacturing, installation, commissioning, and service support.

Water Treatment Systems

- Reverse Osmosis (RO) Plants
- Ultrafiltration (UF) Systems
- Water Softeners
- Demineralization (DM) Plants
- Mixed Bed (MB) Polishers

Wastewater Treatment Solutions

- Sewage Treatment Plants (STP)
- Effluent Treatment Plants (ETP)
- Zero Liquid Discharge (ZLD) Systems

Process Chemicals & Equipment

- Water Treatment Chemicals
- Industrial Spares & Components
- High-performance Pumps, Membranes & Consumables
